

# MY Favorite Restaurant

Daniel

"Welcome." That's what I here when I walk into my favorite restaurant Tony's. Tony's is my favorite restaurant because of three reasons. My first reason is their sushi. Second, is their friendly service. Third, is their freaky dolls waving their hand in the window.

To begin with, their sushi always makes my hunger stop. As soon as you taste the sushi you'll already want more. They have all kinds of sushi that you can't even pick. When you taste a little of the sushi you'll go crazy. Even a tiny taste of it you'll say it's the best sushi in the world. So get there before it's all gone!

Moving right along, the service there is really nice. They won't say can I help you in a mumbly way. They always say it in a nice way. They'll greet you in a nice way and they always up for talking. Once they were about to close but they let us in anyway. Their service is so nice they can't say anything mean.

Last but not least, they have these  
freaky dolls waving their hand in  
the window. Once you look at the  
dolls you'll feel a shiver. The  
dolls are jus standing there with  
their big eyes waving their hand. When  
you walk by them they never  
stop. It seems like they're  
haunting you.

So you've herd about the sushi  
nice service, and the freaky dolls  
now whats yours.
