

# KOKORO

## JAPANESE RESTAURANT

Thank you for your patronage to Kokoro. I am sorry I had to shut down for a little over a month at the start of the year. I had to have surgery on my shoulder in order to continue cooking in the future. It will take over a year to fully recover from the shoulder surgery. Please understand that I work through pain every night, but I am here because I love to cook and I love giving people Tony food. I work as fast as I can and still maintain quality food. I go from sushi bar to kitchen and back and forth because Kay and I are the only ones preparing your food. I have a system that is the most efficient for me and will get the most food out in the shortest amount of time. It may not make sense to you, but there is a method to my madness. Kokoro does not have heat lamps for food, so your food comes straight to your table as soon as it is prepared.

Food is my passion and I want you to appreciate my food and Kokoro. Please order a variety of foods that can be shared and enjoyed with everyone at your table. Allow eating here to be an event with the proper amount of time devoted to your enjoyment. I am unique and do things different than most other restaurants that you may be used to. Almost all of my food is made from scratch right down to the sauces that accompany it. Everything takes time to prepare in order to ensure that you receive the highest quality of food. The only thing I don't do to the food I serve is grow or catch it. After that it is all Tony until it arrives at your table. I hope everyone appreciates this and can tell the difference in taste and quality.

Thank you again. Kay and I appreciate your support of Kokoro through all of these years.

Tony
